

Part No.

GAUG-0200I

0-200 Inch H₂O Analog Pressure Gauge ($\pm 1.5\%$ full scale accuracy)

Analog test gauges are convenient for field calibrations. A knife-edge pointer and mirrored band make reading the gauge very easy. An economical choice for calibrating pressure instruments.

Features

GAUG-0200I

Specifications

Pressure Range	0 to 200 In H ₂ O
Accuracy	$\pm 1.5\%$ of Full Scale
Process Connection	1/4" male NPT bottom connection
Dial Size	2.5 in (6.35 cm)
Mirror Band	No
Temperature range	-4 to 140 °F (-20 to 60 °C)
Construction	ABS Plastic, Brass, Plated Steel
Seal materials	Buna-N
Gauge type	Analog
